### **Agenda Item #1: Call to Order**

The meeting was called to order at approximately 10:00 a.m.

### **Opening Remarks & Safety Briefing**

A safety briefing was provided, including evacuation procedures and emergency equipment locations. The Board Chair offered reflections on civic engagement and collaboration in transportation planning.

### **Agenda Item #2: Approval of Agenda**

- The agenda was approved without any edits.

### **Agenda Item #3: Public Comments**

- There were no public comments provided at the meeting or submitted prior to the meeting.

### **Agenda Item #4: Approval of Minutes**

- The minutes from the June 5, 2025, FTAC meeting were approved unanimously.

### **Agenda Item #5: Regional Legislative Agenda - Pavithra Parthasarathi, HRTPO**

- Ms. Parthasarathi provided highlights on the following topics from the upcoming HRPDC/HRTPO Regional Legislative Agenda:
  - Primary & Secondary Road Fund
    - There are \$3 billion in unmet needs identified in the 2045 LRTP.
    - Proposal to increase regional sales tax from 7/10 of a penny to 1 cent would generate approximately \$84 million annually to improve primary and secondary roadways.
    - There is an emphasis on unanimous locality support for legislative success. House Bill 2466 was vetoed last year; similar legislation may be reintroduced.
  - Transit Funding
    - There are concerns over funding disparities with light rail due to how it is classified.
    - Continued support for regional transit initiatives.
  - Flood Prevention & Emergency Management
    - Advocacy for state support to meet local match requirements for large-scale flood projects.
    - Emphasis on preparedness and shelter infrastructure.
  - State Funding for PDCs
    - Request to restore inflation-adjusted funding levels for Hampton Roads after the Peninsula and Southeast Virginia PDCs were combined in the 1990s.
    - Coordination with other Virginia PDCs.
  - Trail Funding
    - Advocacy for Trail757 and regional trail connectivity.
    - Emphasis on quality of life and economic development.
  - Passenger Rail and Toll Mitigation
    - Support for Long Bridge improvements in Northern Virginia.
    - Continued toll relief for the Elizabeth River Crossings for low-income residents.

### **Agenda Item #6: 2050 Long-Range Transportation Plan (LRTP) Update - Dale Stith, HRTPO**

- Ms. Stith described the 2050 LRTP development to committee members. She noted that:
  - Over 300 candidate projects are being evaluated for the 2050 LRTP.

- Freight-related input from FTAC and other stakeholders is critical.
- Draft prioritization scores will be shared with FTAC members via email prior to the next meeting for feedback.
- Fiscal constraint discussions regarding candidate projects will begin around mid-October.
- Ms. Stith wrapped up her presentation by noting that HRTPO staff will ask FTAC for a resolution of support for project scores and freight-related projects at the December 4 meeting.

#### **Agenda Item #7: Regional Freight Study Update – Keith Nichols, HRTPO**

- Mr. Nichols noted that final approval of the Hampton Roads Regional Freight Study document will be delayed until the December 4 FTAC meeting in order to incorporate additional comments.
- Mr. Nichols added that recent updates to the study include an expanded air cargo section based on the recent Norfolk Airport presentation to the FTAC. An executive summary was also added to the report.
- HRTPO staff asked FTAC members to review corridor prioritization and project rankings.

#### **Agenda Item #8: Statewide Freight Advisory Committee Update – David White, FAC Chair**

- Mr. White noted that the August Statewide Freight Advisory Committee meeting was cancelled. The next meeting is scheduled for November 12, 2025.

#### **Agenda Item #9: Future Meeting Topics and Action Items**

- The following items are included in the future meeting topics and action items:
  - 2050 Long-Range Transportation Plan Updates
  - Hampton Roads Intraregional Freight Movement Analysis Kickoff
  - Hampton Roads Rail Crossing Study

#### **Agenda Item #10: Old/New Business**

- Ms. Grigsby raised concerns about delays moving oversized freight due to police escort shortages.
  - Committee members noted that there is a potential for this to have a broader impact in the future due to increased modular shipbuilding and military freight.
  - The discussion of this item led to a suggestion to explore regional solutions and data collection.
  - This item will be discussed further at a future FTAC meeting, including a briefing by appropriate officials, possibly from the DMV.

**Agenda Item #11: Next Meeting**

- The next meeting is scheduled for Thursday, December 4, 2025, at the World Trade Center in Norfolk.

**Agenda Item #12: Closing Remarks**

- There was a moment of silence observed for the 9/11 anniversary.
- The meeting was adjourned at 11:35 a.m.

## **AGENDA ITEM #5: 2050 LONG-RANGE TRANSPORTATION PLAN UPDATE**

HRTPO staff have completed the draft evaluation and prioritization of candidate projects for the 2050 Long-Range Transportation Plan (LRTP), marking an important milestone in the development of the region's next long-range plan. Approximately 100 freight-related candidate projects were evaluated through a collaborative, data-driven process. Draft scores and rankings, along with an [interactive mapping portal](#) and supporting documentation, were shared with FTAC members for review, with feedback requested by November 25, 2025.

As we move into the next phase of the LRTP, the region will identify the most robust and resilient transportation investments that help improve mobility, enhance connectivity, and support long-term regional performance – including strengthening the freight network – based on the level of funding expected to be available over the next 20 years. This phase determines which projects will be fiscally constrained in the 2050 LRTP and, therefore, positioned to advance toward construction.

The December FTAC meeting is an important opportunity for members to highlight freight-significant candidate projects they believe are especially important as we enter fiscal constraint discussions.

Ms. Dale Stith, HRTPO, will brief the FTAC on this item.

## **AGENDA ITEM #6: HAMPTON ROADS REGIONAL FREIGHT STUDY**

HRTPO engages in numerous regional freight planning activities, including the development of the Hampton Roads Regional Freight Study, which serves as a comprehensive resource document on the Hampton Roads multimodal transportation system.

The overall purpose of the Regional Freight Study is to understand the impact of regional freight movement in order to guide policy and investment decisions—particularly for prioritizing transportation projects—that will improve the connectivity, efficiency, reliability, and safety of the Hampton Roads freight multimodal transportation system.

The Regional Freight Study details the movement of goods across all freight facilities—highways, ports, railways, and airports. This version of the Regional Freight Study, which updates the most recent version that was released in 2017, includes the following sections:

- Introduction
- Freight Facilities Inventory
- Freight Trends and Forecasts
- Hampton Roads Commodity Flows
- Regional Truck Movement and Bottlenecks
- Integration of Freight into the Transportation Planning Process
- National Freight Planning Efforts and Funding Sources
- Summary and Next Steps

HRTPO staff presented portions of the study at the December 2024 and March 2025 FTAC meetings. The final draft version of the document, which incorporates comments from FTAC members and the Port, will be provided to committee members prior to the meeting and will be available at the following link:

<https://www.hrtpo.org/DocumentCenter/View/14667/T25-05-Hampton-Roads-Regional-Freight-Study---2025-Update-PDF>.

Mr. Keith Nichols, HRTPO, will brief the FTAC on this item.

**Recommended Action:** Approval of the Hampton Roads Regional Freight Study.

## **AGENDA ITEM #7: HAMPTON ROADS INTRAREGIONAL FREIGHT MOVEMENT STUDY - KICKOFF**

As the home of the Port of Virginia marine terminals, the Hampton Roads region is a vital hub for freight movement, with significant economic activities centered around the ports and industrial facilities. Understanding the dynamics of freight transportation within the region is crucial for optimizing logistics, reducing congestion, and supporting economic growth. Hence, Port staff requested that the HRTPO undertake this study to enhance the understanding of freight movement between key freight activity centers, including warehouses, manufacturing operations, truck terminals, and port facilities, which can provide valuable insights to inform future infrastructure investments and policy decisions.

This study will analyze these dynamics of freight transportation in Hampton Roads by producing an intraregional freight network map for the Hampton Roads region, which will detail the volumes and frequencies of freight trips between critical freight activity centers.

The study will aim to achieve the following objectives:

- Key Freight Corridors – Determine the primary routes used for freight transportation and their respective capacities, to include locally designated truck routes.
- Volume and Frequency Analysis – Assess the volume of freight and the frequency of trips between freight activity centers to identify patterns and peak usage times.
- Infrastructure and Truck Parking Needs – Highlight areas where infrastructure and truck parking improvements are necessary to support the efficient and safe movement of freight.
- Economic Impact - Evaluate the economic implications of freight movement on the region, including potential benefits and challenges.
- Planning Recommendations - Provide data-driven recommendations for the long-range planning process to enhance the efficiency and reliability of the freight network.

Mr. Keith Nichols, HRTPO, will brief the FTAC on this item.

**Recommended Action:** For discussion and information purposes at this time.

## **AGENDA ITEM #8: STATEWIDE FREIGHT ADVISORY COMMITTEE - UPDATE**

In an effort to ensure that freight is considered continuously and comprehensively, the Secretary of Transportation established a statewide Freight Advisory Committee (FAC). The FAC provides a forum to communicate and engage with public and private partners to understand needs, inform policy, and advocate for freight to achieve a dynamic transportation system that creates economic opportunities for Virginia and the nation. The last FAC meeting was held on November 12, 2025.

Mr. David White, FAC Chair, will provide an update to the FTAC on this item.

**Recommended Action:** For discussion and information purposes at this time.

## **AGENDA ITEM #9: FTAC 2026 MEETING SCHEDULE**

The HRTPO Freight Transportation Advisory Committee (FTAC) typically meets on a quarterly basis and sets meeting dates for the following year at the end of the previous year. The dates for the 2026 FTAC meetings have not been set.

Mr. Keith Nichols, HRTPO, will discuss the upcoming meeting schedule with the FTAC.

**Recommended Action:** For discussion and information purposes at this time.

## **AGENDA ITEM #10: FTAC ROUNDTABLE DISCUSSION**

FTAC members will be given the opportunity to provide updates and discuss any current freight-related concerns with the committee.

**Recommended Action:** For discussion and information purposes at this time.

**AGENDA ITEM #11: FUTURE MEETING TOPICS AND ACTION ITEMS**

- A. 2050 Long-Range Transportation Plan Updates**
- B. Hampton Roads Rail Crossing Study**
- C. Hampton Roads Intraregional Freight Movement Study**
- D. Oversized Freight Movement Status and Concerns**
- E. HRTPO Fiscal Year 2027 Unified Planning Work Program**

**AGENDA ITEM #12: OLD/NEW BUSINESS****AGENDA ITEM #13: NEXT MEETING**

Scheduling the next FTAC meeting will be discussed earlier in the agenda.

**AGENDA ITEM #14: ADJOURNMENT**
