Bill	Patron	Status	Committee Info/Resources	
Broadband/Telecommunications				
HB640	Comprehensive plan; broadband infrastructure. Provides that a locality's comprehensive plan shall include strategies to provide broadband infrastructure that is sufficient to meet the current and future needs of residents and businesses in the locality. In the preparation of a comprehensive plan, broadband infrastructure shall be included among the matters that the local planning commission shall survey and study.	Boysko	2/8/18: House - VOTE - BLOCK VOTE PASSAGE (99-Y 0-N) 3/5/18: Senate - Passed Senate with amendment (38-Y 0-N 2-A)	
HB1258	Zoning for wireless communications infrastructure. Establishes parameters regarding applications for zoning approvals for certain wireless support structures. Applications for certain new wireless support structures that are 50 feet or less above ground level and for the co-location on an existing structure of a wireless facility that is not a small cell facility are exempt from requirements that they obtain a special exception, special use permit, or variance, though a locality may require administrative review for the issuance of any zoning permits or an acknowledgement that zoning approval is not required for such projects. Aspects of the zoning approval process addressed in this measure include periods for approval or disapproval of applications, a requirement that applications are deemed approved if not approved or disapproved within the applicable period; application fees; a prohibition against unreasonably discriminating between applicants and other wireless services providers, providers of telecommunications services, and nonpublic providers of cable television and electric services; and limits on the number of new wireless support structures that can be installed in a specific location. The measure also prohibits a locality, in its receiving, consideration, and processing of an application for zoning approval, from engaging in certain activities. 	Stormwater management; rural Tidewater; tiered approach to water quantity technical criteria; impervious cover percentage. Allows any rural Tidewater locality, as defined in the bill, to comply with water quantity technical criteria for certain land-disturbing activities based on the percentage of impervious cover in the watershed. The bill provides that any eligible locality electing to use certain control standards shall, by ordinance, adopt an official map that indicates the percentage of impervious cover in each watershed within the locality and shall update the map at least annually. The bill allows any such locality to apply one of the following three standards for managing water quantity to any new development project: (i) if the site, as indicated on the map, has less than 5.0 percent impervious cover, the standard shall be a particular State Water Control Board regulation; (ii) if the watershed has 5.0 percent or more but less than 7.5 percent impervious cover, the standard shall be the one-year, 24-hour release method; and (iii) if the watershed has 7.5 percent or more impervious cover, the standard shall be the energy balance method. The bill provides that any project whose construction would cause the watershed in which it is located to step up to the next higher tier shall be evaluated under the energy balance method or a more stringent alternative.

Economic Development				
106 #4s	GO Virginia Regional Allocations (language only). Authorizes the Virginia Growth and Opportunity Board to reallocate monies between distributions described in the appropriation act in order to increase funding to regional councils that would otherwise receive less than \$750,000 based on the region's share of state population. The only reallocations authorized are those that would increase the region's allocation up to \$750,000.			House Bill - Senate Approved
106 #7s	Restore Building Collaborative Communities and Building Entrepreneurial Economies Programs (language only). Removes the prohibition on administering the Building Collaborative Communities and Building Entrepreneurial Economies programs at the Department of Housing and Community Development (DHCD). The introduced budget removes funding and explicitly prohibits DHCD from continuing to administer these programs. This amendment removes the prohibition to allow DHCD the flexibility to continue these programs if resources become available. The Building Collaborative Communities program provides financial and technical resources to promote regional economic collaborations in economically-distressed areas to stimulate job creation, economic development and to build community capacity and leadership. The Building Entrepreneurial Economies program provides grants and technical assistance to nonprofit organizations and local governments that plan and implement innovative, comprehensive, strategic and sustainable business development strategies that support local and regional asset-based economic development.
