Emergency Management/Inclusive Planning				
HB1999	Department of Emergency Management; responsibilities of political subdivisions; provision of emergency preparedness information to individuals with limited English proficiency, disabilities, or other special needs. Directs the Department of Emergency Management (the Department) to ensure that training programs and programs of public information and education regarding emergency services and disaster preparedness activities established and operated by state agencies be designed to include and reach individuals with limited English proficiency, disabilities, or other special needs. The bill also directs the Department to develop an emergency response plan to (i) address the needs of individuals with limited English proficiency, disabilities, or other special needs in the event of a disaster, including the provisions of competent interpretation services and translated documents, and (ii) assist and coordinate with local agencies in developing a similar emergency response plan for individuals with limited English proficiency, disabilities, or other special needs. The bill requires that every local and interjurisdictional emergency management agency include in its emergency operations plan provisions to ensure that adequate and timely emergency relief assistance, including competent interpretation services and translated documents, is provided to individuals with limited English proficiency, disabilities, or other special needs. The bill requires that the governing body of each locality that is required to establish an alert and warning plan for the dissemination of adequate and timely warning to the public in the event of an emergency or threatened disaster ensure that such alert and warning plan provides adequate and timely warning to individuals with limited English proficiency, disabilities, or other special needs. <p>HB2735</p>	<p>Virginia Coastal Protection Act. Recasts the Virginia Shoreline Resiliency Fund as the Virginia Coastal Protection Fund. Moneys generated by the sale of carbon dioxide emissions allowances through any auction program administered by the Commonwealth are directed to the Fund, which is to be used to implement hazard mitigation projects in areas that are subject to recurrent flooding. The measure directs the State Air Pollution Control Board to adopt regulations to limit and reduce the total carbon dioxide emissions released by electric generation facilities. The regulations are required to comply with the Regional Greenhouse Gas Initiative program. The measure authorizes the Director of the Department of Environmental Quality to establish, implement, and manage an auction program to sell allowances into a market-based trading program. The measure requires revenues from the sale of carbon allowances, to the extent permitted by Article X, Section 7 of the Constitution of Virginia, to be distributed without further appropriation to the Fund, to the VirginiaSAVES program, for certain programs in Southwest Virginia for the purpose of revitalizing communities affected by the decline of fossil fuel production, and for administrative expenses. The measure also (i) states that the development of new utility-owned and utility-operated generating facilities utilizing energy derived from sunlight, or from onshore or offshore wind, to achieve the reduction in carbon dioxide emissions prescribed under the authority of this measure is in the public interest; (ii) directs that Dominion Power and Appalachian Electric Power shall achieve a minimum of 50 percent of the reduction in carbon dioxide emissions prescribed under the authority of this measure through the development of such generating facilities; and (iii) requires any retail customer that purchases electric energy from a supplier other than the customer's incumbent utility to pay a non-bypassable surcharge equal to the price established under the allowance auction to the incumbent utility for any purchase of electric energy that is not from a facility utilizing renewable energy or nuclear power. An enactment clause exempts from the Administrative Process Act actions taken by the Department of Environmental Quality to incorporate provisions of this measure into State Air Pollution Control Board regulations without further action of the Board. The enactment also provides that such incorporation will become effective upon their approval by the Director of the Department and the filing of the amended regulations with the Registrar of Regulations.</p>	<p>Toscano</p>	<p>1/24/19: House - Subcommittee failed to recommend reporting (3-Y 6-N)</p>

Water Resources				
<u>HB885</u>	Onsite sewage systems; authority of the Board of Health. Clarifies that the Board of Health shall have supervision and control over the maintenance, inspection, and reuse of conventional onsite sewage systems as well as alternative onsite sewage systems.	Orrock	3/7/18: Senate - Continued to 2019 in Education and Health	
<u>HB1614</u>	Local Stormwater Management Fund; grant moneys. Authorizes any locality to provide by ordinance for the creation of a local Stormwater Management Fund (the Fund) for the purpose of granting funds to an owner of private property or a common interest community for stormwater management and erosion prevention. The bill requires grants from the Fund to be used exclusively for construction, improvement, or repair of a stormwater management facility or for erosion and sediment control. The Fund shall exclusively comprise appropriated local moneys.	Cole	1/24/19: House - Subcommittee recommends reporting with amendment (6-Y 2-N)	
<u>HB1769</u>	Management of menhaden. Requires the Virginia Marine Resources Commission (the Commission) to adopt regulations to implement the Atlantic States Marine Fisheries Commission's Interstate Fishery Management Plan for Atlantic Menhaden and authorizes the Commission to adopt regulations for managing the Commonwealth's menhaden fishery. The bill also requires that any moratorium on the fishery be subject to legislative review. The bill repeals several Code sections relating to quotas, allocation of allowable landings, and administrative procedures that will be included in a regulatory framework for managing the fishery.	Knight	1/9/19: Assigned ACNR Sub #3	
<u>HB1822</u>	Virginia Water Quality Improvement Fund; grant for wastewater conveyance facility; estimates of future funding requests; Stormwater Local Assistance Fund. Authorizes the Director of the Department of Environmental Quality (the Department) to authorize grants from the Virginia Water Quality Improvement Fund (the Fund) for the installation of certain wastewater conveyance infrastructure. Any such infrastructure shall divert wastewater from one publicly owned treatment works that is eligible for grant funding to another such eligible treatment works and shall result in no more expense to the Fund than would otherwise be incurred to install eligible nutrient removal technology or other treatment technology at the treatment works from which the wastewater will be diverted.	Bulova	1/23/19: House - Subcommittee recommends reporting (7-Y 0-N)	
<u>HB1879</u>	Stormwater management facilities; private residential lots; disclosure. Directs the State Water Control Board to adopt regulations requiring any local stormwater management authority that requires a residential landowner to maintain a stormwater management facility on his property to record with the deed for the property a statement of the specifications and requirements and a schedule of audits of the facility. The bill requires the seller of any property with such a facility to disclose the specifications, requirements, and schedule of audits to a purchaser of the property.	Convirs-Fowler	1/22/19: House - Subcommittee recommends laying on the table (6-Y 2-N)	
<u>HB2047</u>	Oyster planting grounds; municipal dredging projects; compensation. Extends the duration of an exception, for municipal dredging, to the right of a person to lease oyster planting grounds, and establishes a procedure for determining compensation to such a leaseholder when his grounds are disturbed by such a dredging project. HB2062	Ground water management; human consumption. Defines "human consumption" of ground water as drinking, food preparation, dishwashing, bathing, showering, hand washing, teeth brushing, and maintaining oral hygiene.	Carr	1/23/19: House - Subcommittee recommends laying on the table (9-Y 0-N)	
HB2063	Ground water withdrawals; waste. Provides that when the State Water Control Board determines that surface water is reasonably available for use in a ground water management area, the use of ground water other than from the surficial aquifer in such management area for a purpose other than human consumption shall be deemed to constitute waste. The bill prohibits the issuance of a ground water withdrawal permit to authorize the withdrawal of water that constitutes waste. The bill contains technical amendments.	Carr	1/23/19: House - Subcommittee recommends laying on the table (9-Y 0-N)	
HB2064	Ground water withdrawals; allocation. Requires any person applying for a ground water withdrawal permit in the Eastern Virginia Groundwater Management Area (EVGMA) who proposes to use 50 percent or more of the water to be withdrawn for human consumption to submit documentation of such use to the State Water Control Board (the Board). The bill requires the Board to conduct a technical evaluation to determine whether the proposed withdrawal, when combined with all existing lawful withdrawals, will lower water levels in any confined aquifer. The bill prohibits the Board from issuing a permit for such human consumptive use if the withdrawal would lower levels in any confined aquifer below a point representing 80 percent of the distance between the land surface and the top of the aquifer. For a use that does not qualify as a human consumptive use, the bill prohibits the Board from issuing a permit if the withdrawal would lower such levels below a point representing eight percent of the distance between the land surface and the top of the aquifer.	Carr	1/23/19: House - Subcommittee recommends laying on the table (9-Y 0-N)	
HB2103	Stormwater management plans; erosion and sediment control plans; portion of project. Directs the State Water Control Board to establish a procedure that allows an operator to submit stormwater management plans that are sufficient for a particular proposed land-disturbing activity without requiring such plans to cover any subsequent land-disturbing activity anticipated at the same location or an adjacent location. The bill also amends a provision of the law that is not yet effective, directing the establishment of the same procedure as it applies not only to stormwater management plans but also to erosion and sediment control plans.	Freitas	1/16/19: Assigned ACNR Sub #3	
HB2105	Coal combustion residuals; Chesapeake Bay watershed; closure. Requires the owner or operator of any coal combustion residuals (CCR) unit, defined in the bill to include a coal ash pond or landfill, that is located in the Chesapeake Bay watershed to close such CCR unit by removing all of the CCR for (i) recycling, known as encapsulated beneficial use, or (ii) deposition in a permitted and lined landfill that meets certain federal standards. Any owner or operator that disposes of CCR in such a landfill is required to explain why recycling is not economically feasible. Such a closure project shall be completed within 15 years of its initiation and shall be accompanied by water testing or a connection to a municipal water supply for every residence within one-half mile. SB1666	Virginia Coastal Protection Act. Recasts the Virginia Shoreline Resiliency Fund as the Virginia Coastal Protection Fund. Moneys generated by the sale of carbon dioxide emissions allowances through any auction program administered by the Commonwealth are directed to the Fund. The measure directs the State Air Pollution Control Board to adopt regulations to limit and reduce the total carbon dioxide emissions released by electric generation facilities. The regulations are required to comply with the Regional Greenhouse Gas Initiative program. The measure authorizes the Director of the Department of Environmental Quality to establish, implement, and manage an auction program to sell allowances into a market-based trading program. The measure requires revenues from the sale of carbon allowances, to the extent permitted by Article X, Section 7 of the Constitution of Virginia, to be distributed without further appropriation to assist localities in implementing hazard mitigation projects in areas that are subject to recurrent flooding, to support energy efficiency programs, to programs in Southwest Virginia for the purpose of revitalizing communities affected by the decline of fossil fuel production, and for administrative expenses. An enactment clause exempts from the Administrative Process Act actions taken by the Department of Environmental Quality to incorporate provisions of this measure into State Air Pollution Control Board regulations without further action of the Board. The enactment also provides that such incorporation will become effective upon approval of the provisions of the measure by the Director of the Department and the filing of the amended regulations with the Registrar of Regulations	Lewis	1/24/19: Senate - Passed by indefinitely in ACNR (8-Y 6-N 1-A)
