:12 DOUGHNUT HOLE [WATER AWARENESS-VALUE OF WATER]

Just how valuable? On average, a gallon of water costs less than one cent. Think about all the water you use in a day and then imagine a day without it. For something so essential, it's amazingly inexpensive.

Let's partner up and protect our region. And our resources. Questions? Just [askHRgreen.org](http://askHRgreen.org).

*SUGGESTED IMAGERY: daily water usage tasks: cleaning, drinking, bathing, etc.*

### **1C. [WATER AWARENESS-FIXING LEAKS]**

:12

ANNOUNCER: In Hampton Roads, we live, work and play surrounded by waterways and water systems that don't know local boundaries. That's why we need to work together, protecting these valuable resources.

-----  
:12 DOUGHNUT HOLE [WATER AWARENESS-FIXING LEAKS]

What can you do? Find and fix the leaks in your house to save water and money. A slowly dripping faucet or a running toilet can waste thousands of gallons of water.
