

- If issues are identified, the HRFOG program offers a variety of free resources that can be passed along to customers to ensure FSE staff are following proper kitchen best management practices. If you suspect a problem, please contact the city or county FOG program for free educational materials or further assistance.

- FOG is accepted at several* HRSD wastewater treatment plants by haulers that have obtained a current HRSD Indirect Wastewater Discharge Permit. Visit www.hrsd.com for more information. HRSD does not allow decanting of wastes within the HRSD service area or decanted wastes at any HRSD wastewater treatment plant. GCDs shall be pumped dry at each cleaning.
 - FOG is accepted only at the following HRSD wastewater treatment plants: Atlantic, Boat Harbor, Chesapeake Elizabeth (closing 2021), Nansemond, and Williamsburg.
