

Attachment A

Locality	Priority Level	Flooding Cause	Lat	Lon	Comments
Chesapeake	High	Rainfall	36.8398	-76.4242	Low lying area, Large CDA
Chesapeake	High	Tidal and Rainfall	36.7237	-76.2409	This is a main corridor that floods due to road elevation being so close to the marsh elevation.
Chesapeake	High	Tidal and Rainfall	36.7111	-76.2739	This roadway is a main corridor near City Hall.
Chesapeake	High	Tidal and Rainfall	36.7100	-76.2675	The elevation of the road is less than 7.0.
Chesapeake	High	Tidal and Rainfall	36.7545	-76.2874	This low elevation street feeds both industrial and residential areas for the City.
Chesapeake	High	Tidal and Rainfall	36.7591	-76.2882	Low lying area
Chesapeake	High	Tidal and Rainfall	36.8207	-76.4061	Low Elevation Street
Chesapeake	High	Tidal and Rainfall	36.7135	-76.1021	Low lying roadway at a floodplain
Chesapeake	High	Tidal and Rainfall	36.7837	-76.2827	Falcon Floods
Chesapeake	High	Tidal and Rainfall	36.7765	-76.2856	Triple Decker Bridge
Chesapeake	High	Tidal and Rainfall	36.7853	-76.2825	Low area
Chesapeake	Low	Rainfall	36.5868	-76.1673	
Chesapeake	Low	Rainfall	36.5785	-76.1304	
Chesapeake	Low	Rainfall	36.6194	-76.1273	
Chesapeake	Low	Rainfall	36.6164	-76.2774	Low roadway elevations
Chesapeake	Low	Rainfall	36.6667	-76.3292	
Chesapeake	Low	Rainfall	36.6609	-76.1559	
Chesapeake	Low	Tidal	36.7511	-76.2803	
Chesapeake	Low	Tidal and Rainfall	36.8593	-76.4063	
Chesapeake	Low	Tidal and Rainfall	36.8474	-76.4367	
Chesapeake	Low	Tidal and Rainfall	36.8099	-76.2780	
Chesapeake	Low	Tidal and Rainfall	36.7927	-76.2793	
Chesapeake	Low	Tidal and Rainfall	36.7536	-76.2799	Neighborhood Flooding - low lying streets
Chesapeake	Low	Tidal and Rainfall	36.7558	-76.2843	Low lying Streets
Chesapeake	Low	Tidal and Rainfall	36.7853	-76.3202	Flat low subdivision
Chesapeake	Low	Tidal and Rainfall	36.7236	-76.2869	Low road
Chesapeake	Low	Tidal and Rainfall	36.7273	-76.2804	Low Roadway Elevations
Chesapeake	Low	Tidal and Rainfall	36.7296	-76.2843	Low roadways and yards
Chesapeake	Low	Tidal and Rainfall	36.7391	-76.2854	There is a USGS close by.
Chesapeake	Low	Tidal and Rainfall	36.6018	-76.2766	
Chesapeake	Low	Tidal and Rainfall	36.8056	-76.4088	
Chesapeake	Low	Tidal and Rainfall	36.7971	-76.4200	
Chesapeake	Low	Tidal and Rainfall	36.7952	-76.4343	
Chesapeake	Low	Tidal and Rainfall	36.7549	-76.3628	
Chesapeake	Low	Tidal and Rainfall	36.7426	-76.3495	
Chesapeake	Low	Tidal and Rainfall	36.7201	-76.3519	
Chesapeake	Low	Tidal and Rainfall	36.7383	-76.3600	
Chesapeake	Low	Tidal and Rainfall	36.7179	-76.3250	
Chesapeake	Low	Tidal and Rainfall	36.5784	-76.2517	
Chesapeake	Low	Tidal and Rainfall	36.6120	-76.3249	
Chesapeake	Low	Tidal and Rainfall	36.7949	-76.2146	
Chesapeake	Low	Tidal and Rainfall	36.7957	-76.2372	
Chesapeake	Low	Tidal and Rainfall	36.8373	-76.3969	
Chesapeake	Low	Tidal and Rainfall	36.7510	-76.3741	Low area with large CDA from GDSNWR
Chesapeake	Low	Tidal and Rainfall	36.7834	-76.3318	
Chesapeake	Low	Tidal and Rainfall	36.7698	-76.3027	Industrial Park Area
Chesapeake	Low	Tidal and Rainfall	36.6247	-76.3121	
Chesapeake	Low	Tidal and Rainfall	36.7646	-76.2747	
Chesapeake	Low	Tidal and Rainfall	36.7655	-76.2827	
Chesapeake	Low	Tidal and Rainfall	36.7709	-76.2843	
Chesapeake	Low	Tidal and Rainfall	36.6886	-76.2502	
Chesapeake	Low		36.5595	-76.2298	
Gloucester County	High	Tidal	37.2790	-76.4131	Jenkins Neck and Maryus Intersection. Road may be inundated during high tide.
Gloucester County	High	Tidal	37.2714	-76.4126	Jenkins Neck road. Road may be inundated during high tide.
Gloucester County	High	Tidal	37.2765	-76.4256	Perrin Creek Road. Road partially floods during high tide.
Gloucester County	High	Tidal	37.2727	-76.4249	Near intersection of Perrin Creek Road and Cooks landing Road. Road partially floods during high tide.
Gloucester County	High	Tidal	37.2801	-76.4410	Intersection of Guinea Road and Maryus.
Gloucester County	High	Tidal	37.2813	-76.4406	Severn Wharf Road near intersection of Kings Creek Road.
Gloucester County	High	Tidal	37.2636	-76.4510	Mark Pine Road
Gloucester County	High	Tidal	37.2618	-76.4510	Little England Road
Gloucester County	High	Tidal	37.2603	-76.4523	Little England Road
Gloucester County	High	Tidal	37.2835	-76.4811	Low Ground Road
Gloucester County	High	Tidal	37.3082	-76.4566	Glass Road and Stonewall Road
Gloucester County	High	Tidal	37.3402	-76.4730	Warner Hall Road
Gloucester County	High	Tidal	37.3434	-76.4939	Featherbed Lane

Gloucester County	High	Tidal	37.3346	-76.4376	Robbins Neck Road and The Corduroy
Gloucester County	High	Tidal	37.2848	-76.5283	Carmines Island
Gloucester County	High	Tidal	37.3862	-76.6416	Allmondsville Road
Gloucester County	High	Tidal	37.3853	-76.6394	Allmondsville Road
Gloucester County	High	Tidal	37.3853	-76.6383	Allmondsville Road
Gloucester County	Low	Tidal	37.2814	-76.4819	Low Ground Road
Hampton	High	Tidal	37.0806	-76.2845	
Hampton	High	Tidal and Rainfall	37.0830	-76.2908	
Hampton	High	Tidal and Rainfall	37.0031	-76.3731

Norfolk	Programmed		36.9004	-76.3042	Larchmont Library Dock - Hampt. Blvd.
Norfolk	Programmed		36.8503	-76.2222	River Edge Road at Outlet of Meadow Lake
Poquoson	High	Tidal	37.1293	-76.3508	Priority #1 This site is one of the most frequently flooded spots in Poquoson and monitoring data would provide insight into the frequency of flooding recurrence and provide valuable information to emergency crews.
Poquoson	High	Tidal	37.1434	-76.3907	Priority #2 Hunts Neck road is a main thoroughfare in the City, and the only ingress/egress for northwest Poquoson. Having flood monitoring capabilities here would allow the City to monitor accessibility and provide input to emergency responders.
Poquoson	High	Tidal	37.1361	-76.3913	Priority #3 Having flood monitoring equipment here would help alert the City/COs residents of the need to take alternate routes. Recurrent flooding data would help determine the service life of this road so we can plan when an elevation project is need
Poquoson	High	Tidal	37.1250	-76.3769	Priority #4 Little Florida Road is one of Poquoson's main roads. The section near Kathy Drive is most prone to tidal flooding. Since it is a heavily trafficked road, it is vital that the City have information about flooding on the road.

Portsmouth	High	Tidal	36.8332	-76.3582	King Street near Augusta Avenue
Portsmouth	High	Tidal	36.8308	-76.3618	Powhatan Avenue at Columbia Street
