NOTES & ANALYSIS

Our monthly traffic is following the same seasonal fluctuations as last year. As we discussed at lunch, we are going to do a push during July and August, two of our slower months, to help get a little extra oomph during that time.

One area where we've seen a decline in traffic is organic search engine traffic. With all of the content continually being added to the site, this is a place where we can maximize its impact by deploying monthly, managed SEO services. Let's talk about this.

NOTES & ANALYSIS

Chesapeake has edged out Norfolk for the #2 spot on our geographic map above. That's a trend we'll keep an eye on because this could be an indicator of peaked interest. That's helpful to know when planning campaigns and content.

SOCIAL MEDIA / Facebook

May include Organic & Paid Traffic

NOTES & ANALYSIS

We ran 1 Facebook ad & 9 posts in May.

It's terrific to see the continual growth in Page Followers. Our audience is growing!

We thought April was a stellar month for Reach, but May topped it with a **16% increase**.

Campaign Name	Starts	Ends	Reach	Impressions	Total Engagements	Engagement Rate
1. Water Awareness	May 7, 2019	May 31, 2019	62,220	177,108	46	0.03%

NOTES & ANALYSIS

We're seeing the value in augmenting our full media campaigns with this social-only strategy that extends the life of the overall campaign. We'll track topic-related results, campaign-over-campaign and year-over-year to gain additional insights.

SOCIAL MEDIA / Instagram

May include Organic & Paid Traffic

NOTES & ANALYSIS

We posted 9 Instagram posts in May.

IG followers continue to increase. This is terrific social momentum.

May reached the 2nd most people since the beginning of year. That's incredible.
